CHARACTER-ISTIC

Date: 17th July 2020- 21st July 2020

The Indian Society For Technical Education (ISTE) of GRIET came up with yet another interesting event “CHARACTER-ISTIC” during the lockdown .With the extension of the lockdown and emphasis on social distancing rules increasing, many students have shifted to reading lot of books, watch many movies and are getting more creative with this quarantine; ISTE has come up with a 5-day literary event so that it is well-suited for all students to take part in it.

The main idea to organize such an event is to encourage more students to unleash their favourite characters from whom they’ve been immensely inspired and have created a deep niche in their heart. The 5-day event comprised of 5 genres , each a day starting from 17th July to 21st July .All the participant has to do was to send an eye-grIPPING ,creative image/video of their character and mention us the impact they’ve had upon them ,their similarities to that character and other facts that moved them .

Every morning at 8:00 am a new genre was released along with an example post on the Instagram page (**istegrietsb**), so that it would be easy for the participant to navigate through. The winner will be declared at the end of the contest.

17th July 2020- HUMOUR

Life is definitely incomplete without an essence of humour.

Amartya Smaran, 4th Year, CSE says “Charlie Chaplin was way ahead of his times. When I first watched the whole speech, I could still connect to it. It is so shockingly still relevant in today's time and age. We've forgotten what kindness, humility and virtue is. As a creator, if there's one thing I always strive for ... it is to make my content eternal in its whole nature. I want someone to watch my videos/films after a hundred years and still connect to the story. To stirup an emotion within another human being in any form is the job of a true creator. Chaplin once said, "I consider myself a citizen of the world. I aspire to be that. He's my true inspiration."

18th July 2020- CRIME

There are crimes of passion and crimes of logic. The boundary between them is not clearly defined.

Jayanth, 3rd Year, MECH says “EL PROFESSOR - The professor is a complete slave to his habits and routines. The way he eats, the way he sleeps, the way he trains, everything points to his adherence to his routines. His determination and consistency are also products of strictly following these personal habits.

The first psychological aspect that the character establishes is his intelligence- that he can come up with strategies and plans that others seldom see. He formulates his plans purely on the basis of his analysis of the situation...

Rutherford Professor, The Title of Perfectionist 'Suits Him Better. He always thinks that plan for everything, and he makes sure that he follows the plan. I crave to be at least half a perfectionist he is!! ”

19th July 2020- MOTIVATION

The secret of getting ahead is getting started

Pratyusha, 3rd Year, ECE says” Gary Keller has motivated me a lot. After reading his books I always have all time and energy to do my work. The more we use our mind, the less minding power we have. You make doing what matters most a priority when your willpower is its highest. So, if you want to get the most out of your day, do you're most important work—you're ONE Thing—early, before your willpower is drawn down.

No matter how hard you try, there will always be things left undone at the end of your day, week, month, year, and life. When the things that matter most get done, you'll still be left with a sense of things being undone—a sense of imbalance. Leaving some things undone is a necessary tradeoff for extraordinary results.”

20th July 2020- SCIENCE FICTION

We are impossibility in an impossible universe.

Santosh Sanjeev, 3rd Year, ECE says “The lead of the film The Martian Mark Whatney is a brave person which is imperative from the way he tackled the situation of having to live on mars alone.

He is also an intelligent botanist being able to cultivate potatoes despite the absence of general fertile conditions for them to grow and also being able to setup a communication with people on earth.

He has spontaneous thinking due to which he was able to come with a solution to each his friends during the rescue mission. To conclude he is a brave, collected and intelligent person who was persistent enough to have survived on mars.”

21st July 2020-FINANCIAL DEVELOPMENT

When you understand that your self-worth is not determined by your net-worth, then you'll have financial freedom.

Chetana Reddy, 2nd Year, ECE says “Whenever I can think of finance, investment I can think about many people who’ve made it to the top, but it would be impossible to not mention Warren Buffett .Perhaps the greatest thing that could be gained from Warren Buffett's life is to invest in your-self. He speaks about it often, but he knew when he was younger that he needed good speaking skills in order to convince investors to invest in his partnerships. That is one of the main things that made me get inspired by him. I’ve heard Buffett speak many times about the idea that wise investors say no more often than they say yes. It speaks to the mind-set that you should think things through before you act. “

Many students have taken part in this event, each describing their own story about their character and how it changed their perception in a larger sense.

The ISTE student body team, after carefully assessing each participant's take on their favourite character have announced the winner of the event on 22nd July 2020. **Amartya Smaran**, a final year student was declared as the winner. He was inspired by Charlie Chaplin, and the whole ISTE team was moved by his video. He proved us that a life without humour is similar to a meaningless, fruitless and smile-less purpose! Moreover humour is always underappreciated and people always have wrong notions about humour and that it wasn't necessary for success.

After having received immense participation from the students and support from our faculty members, ISTE GRIET hopes to conduct many more such events in the future to bring out more enthusiasm, fun to college while creating many memories.

ISTE – GRIET – GITHUB

Date: 9th September 2020

The Indian Society for Technical Education (ISTE) of GRIET has come up with an innovative community called the ISTE-GRIET-GITHUB which is also called as ISTE GITHUB ORGANIZATION. It is an initiative by ISTE SB to get students started on their very own GitHub repository. It is also helpful in building projects and also provide development courses such as full stack app development.

This course would proceed with 4 sessions a week. This covers everything you need to know and experience in that particular field from absolute zero knowledge to practical skills that will allow us to create many strong projects.

ISTE GRIET SB
Presents...

Iste- Griet- GitHub

GitHub

A GITHUB organization for GRIET students.

 [istegrietsb](https://www.instagram.com/istegrietsb)  www.iste.griet.ac.in  [Iste Griet SB](https://www.facebook.com/IsteGrietSB)

This program includes three courses, the first is “Introduction to git and GitHub” as it gives complete working of git and GitHub.

The second course is “Introduction to full stack development”, in which we can learn complete full stack using HTML, CSS, nodeJS and mongo DB. It will also help us to develop personal website it will be helpful in our professional life.

The third course is “App development using flutter”, in this we will learn all the basics of flutter and dart. We can also learn flutter for web and a flutter app from scratch.

This Program intake was of 30 students, these students were provided with web links of various tips of learning technologies. The recorded classes were posted in our youtube channel which will help other students also to go through the videos and gain knowledge.

This program has helped students to connect with modern technologies and build new projects by learning freely and efficiently.

FROZEN MEMORY

Date: 30th September 2020 - 6th October 2020

The Indian Society for Technical Education (ISTE) of GRIET conducted an online photography event, “The Frozen Memory”, from 30th September 2020 to 6th October 2020.

Fig 1- Poster of Frozen Memory Event

The idea of the event is to bring everyone together to relive those beautiful memories captured only in frames, in the days of isolation share their experiences with one another. We asked the participants to capture their favourite scenes by taking inspiration from the matter.

The seven-day event started on 30th September 2020. Different student bodies and several individuals actively participated by sharing their pictures and narrating the story behind them. Each story was unique and attractive.

The event was concluded on 6th October 2020 and also the winner was declared. The winner is the one who photograph had the most number of likes on our Instagram page @FrozenMemory.
